

LET'S CiDAAP EMBOLIZATION 2.0

Advanced Embolization, Venous Thrombectomy & Next-Generation Endovascular Therapies

Date: 20 November 2026 | **Time:** 9:00 AM – 7:00 PM

Venue: Welcomhotel by ITC Hotels, Delhi–Gurugram Highway, Delhi NCR, India

Organised by: VASI | Scientific Leadership: Interventional Radiology & Vascular Specialists

SCIENTIFIC PROGRAMME: 09:00 AM – 07:00 PM

09:00 – 09:30 AM | **Registration & Welcome Coffee**

09:30 – 09:45 AM | Inauguration, Welcome Address & Introduction to CiDAAP Embolization 2.0

SESSION I — THE NEW FRONTIERS OF EMBOLIZATION

09:45 – 10:00 AM: **Beyond Conventional Embolization:** Expanding the Role of Interventional Radiology

10:00 – 10:15 AM: **Prostate Artery Embolization (PAE):** Patient Selection, Advanced Techniques & Challenging Anatomy

10:15 – 10:30 AM: **Uterine Fibroid Embolization (UFE):** Optimizing Outcomes and Avoiding Complications

10:30 – 10:45 AM: **Musculoskeletal Embolization:** From Tendinopathy to Chronic Pain Management

10:45 – 11:00 AM: **Genicular Artery Embolization (GAE):** Current Evidence & Technical Pearls

11:00 – 11:15 AM | **Tea Break & Industry Interaction**

SESSION II — NOVEL EMBOLIZATION & EMBOLIC TECHNOLOGIES

11:15 – 11:30 AM: **Shoulder and Elbow Embolization:** New Horizons in Musculoskeletal Intervention

11:30 – 11:45 AM: **Thyroid Artery Embolization:** Current Applications and Emerging Indications

11:45 AM – 12:00 PM: **Onyx, NBCA, Microspheres & Coils:** Choosing the Right Embolic Agent

12:00 – 12:15 PM: **Embolization Devices:** Microcatheters, Wires, Particles and Advanced Delivery Systems

12:15 – 12:30 PM: **Challenging Embolization Cases:** Tips, Tricks, Complications and Bailout Strategies

12:30 – 01:00 PM | **Interactive Debate** on Liquid Embolics vs Particles vs Coils: Is There a Universal Winner?

01:00 – 01:45 PM | **Lunch Break & Industry Exhibition**

SESSION III — VENOUS THROMBECTOMY: DVT & PULMONARY EMBOLISM

01:45 – 02:00 PM: **Deep Vein Thrombosis:** Mechanical Thrombectomy, Venous Reconstruction & Stenting

02:00 – 02:15 PM: **Pulmonary Embolism:** Diagnosis and Management of Acute Massive Pulmonary Embolism

02:15 – 02:30 PM: **Choosing the Right Thrombectomy Device:** Aspiration, Mechanical Extraction and Combined Approaches

02:30 – 02:45 PM: **Complex Venous Cases:** IVC Obstruction, Iliocaval Thrombosis and Advanced Reconstruction

SESSION IV — PERIPHERAL ARTERIAL INTERVENTION

02:45 – 03:00 PM: **Atherectomy in Complex PAD:** Rotarex, JetStream and Orbital Atherectomy

03:00 – 03:15 PM: **Intravascular Lithotripsy:** Treating Severe Calcification and Preserving Vessel Integrity

03:15 – 03:30 PM: **Excimer Laser Atherectomy:** ISR, Complex Lesions and Contemporary Applications

03:30 – 03:45 PM: **Sirolimus Drug-Eluting Balloons** and the “Leave Nothing Behind” Strategy

03:45 – 04:00 PM | Tea Break & Networking

SESSION V — AORTIC & ARCH INNOVATIONS

04:00 – 04:10 PM: GORE VBX Balloon-Expandable Stent: Beyond Conventional Applications

04:10 – 04:20 PM: ConCave Physician-Modified Endograft: Aortic Arch Solutions

04:20 – 04:30 PM: Hector by MicroPort Endovastec: New Approaches to Complex Aortic Arch Repair

04:30 – 04:45 PM: Fenestrated and Branched Aortic Repair: New Devices, Aortic Fenestration and Future Directions

SESSION VI — LIVE TRANSMISSION FROM THE UNITED STATES

05:00 – 05:30 PM | **LIVE CASE 1:** Prostate Artery Embolization

- Pelvic arterial anatomy and challenging prostatic artery origins
- Advanced catheterization and embolic delivery
- Prevention of non-target embolization
- Interactive discussion with the operating team

05:30 – 06:00 PM | **LIVE CASE 2:** Musculoskeletal Embolization

- Target vessel identification and angiographic mapping
- Embolization for chronic musculoskeletal pain
- Embolic selection and endpoint assessment
- Interactive discussion of technique, safety and outcomes

Note: Live transmission subject to operator confirmation, patient consent, institutional approvals and technical connectivity.

SESSION VII — THE GRAND DEBATE & CLOSING

06:15 – 06:40 PM | **Expert Panel Discussion** - “What Will Define the Next Decade of Endovascular Intervention?”

Discussion themes:

- * Embolization: expanding indications and emerging evidence
- * Atherectomy, IVL and laser: choosing the right plaque-modification strategy
- * Drug-eluting balloons and advanced balloon-expandable stents
- * Next-generation aortic arch devices and complex aortic repair
- * Venous thrombectomy: evolving technologies and patient selection

06:40 – 06:50 PM | **Rapid-Fire Challenging Cases** - Five Cases, Five Lessons: Practical Pearls from Everyday Practice

06:50 – 07:00 PM | **Closing Ceremony & Dinner:** Key Take-Home Messages, Acknowledgements to Faculty, Industry Partners and Delegates & Closing Remarks
