

**LET'S**  
**6th Annual Conference**  
**iDAAP 6.0**

*With*

**PEiRT Bharat 2.0**

**December 20-21, 2024**

**The Westin Hotel, Gurugram  
Delhi-NCR, India**

**CONFERENCE BROCHURE**

**[www.lets-cidaap.com](http://www.lets-cidaap.com)**

Dear Esteemed Colleagues,

Greetings from the Vascular Access Society of India (VASI)!

Following the resounding success of **Let's CiDAAP 5.0** and **PEiRT Bharat 1.0**, we are delighted to announce **Let's CiDAAP 6.0** to be held on **December 20–21, 2024**, at **The Westin Hotel, Gurugram, Delhi-NCR, India**.

Since its inception, Let's CiDAAP has been a distinguished platform for healthcare professionals and industry leaders to exchange knowledge and showcase advancements in peripheral endovascular therapies. This year's theme, **"Unveiling the Future: Where Innovation Meets Technology"** underscores our commitment to fostering collaborative innovations in vascular health.

We anticipate a dynamic assembly of over 25 international experts, 100 national experts, and more than 400 delegates from across the globe.

Our comprehensive two-day program will feature live-recorded cases, keynote lectures, interactive panel discussions, and a Grand Quiz, offering the highest level of interactive education.

**CiDAAP 6.0 @2024** will cover almost all the critical topics such as Pulmonary embolism, DVT, PAD, dialysis access, aortic aneurysms, critical limb ischemia, advanced venous interventions, and more.

In alignment with recent advancements, this year's conference will place a special focus on mechanical thrombectomy devices, which have revolutionized the treatment of acute limb ischemia and deep vein thrombosis & Pulmonary Embolism. Traditional treatments for these conditions have often relied on surgical options like conventional thrombectomy for arterial occlusions and anticoagulation for venous conditions. However, there has been a significant shift towards percutaneous mechanical thrombectomy techniques.

The Asian subcontinent has been fortunate to witness the introduction of multiple mechanical thrombectomy devices such as CAVT (CAT12 &16), AngioJet, Inari, and the soon-to-be-introduced devices like Rotarex & Aspirex, Jet-i, Diamondback 360, Jet-Stream. At CiDAAP, we have always championed the integration of new technologies, providing healthcare professionals with hands-on experiences and insights from global experts to incorporate these practices into local healthcare settings, thereby significantly benefiting patients.

**Highlights of Let's CiDAAP 6.0 include:**

- Master MSK Embo with Dr. Okuno (Japan)
- Master PAE/GAE/HAE with Dr. Bagla ( USA)
- Master PAD with Dr. Ysa (SPAIN)
- Multiple Workshops on Latest Mechanical Thrombectomy Devices (Arterial, Venous & Pulmonary).
- Workshops Featuring Step by step approach
- Expert-Led Sessions on:
  - Closure Devices
  - Suturing Techniques
  - Physician-Modified Fenestration of Endografts.
- In-Depth Discussions with KOL.
- Perspectives from VS, IR, & Cardiologists (Holistic View).
- Case Based Presentations (Learn from the Mistakes made by Experts).

We are pleased to invite you to join us at this prestigious event as a delegate. This conference offers an unparalleled opportunity to engage with global experts, gain practical experience, and participate in enriching discussions on the forefront of vascular health advancements. Given the focused nature of this event, we are limiting registrations to ensure a high-quality, interactive experience.

To secure your participation at this transformative event, please register at the earliest. For any inquiries regarding participation or specific options, kindly contact the organizing committee at [letscidaap@gmail.com](mailto:letscidaap@gmail.com)

We look forward to your enthusiastic participation and to making **Let's CiDAAP 6.0** a grand success.

Warm regards

**Dr. Rajiv  
Parakh**

**Dr. Tarun  
Grover**

**Dr. Virender  
Sheorain**

**Dr. Lawish  
Agarwal**

**Dr. Avichala  
Taxak**

# Don't miss the opportunity to meet In-person with Stalwarts

Gain expertise in Percutaneous Pulmonary Thrombectomy & Dialysis Access through a detailed learning experience with renowned International Masters Dr. Bart Dolmatch

## Dr. Bart Dolmatch

Interventional Radiologist  
at The Palo Alto Medical Foundation

Dr. Sanjeeva Kalva of the USA. These seasoned experts will impart their vast knowledge on VTE, advanced venous interventions and Obviously Controversies In Dialysis Access.

## Dr. Sanjeeva Kalva

Professor of Radiology and Vice Chair of Image-Guided Interventions, University of Texas Southwestern Medical Center Dallas, TX

Dive into hands-on training with special workshops led by Dr. Venkat Tummala of the USA, focusing on cutting-edge technologies such as Flash 2.0, Bolt 7 the INARI system, Rotatex, and Aspirex etc.

## Dr. Venkat Tummala

Vascular & Interventional  
Radiologist Associate CMO Penumbra

Don't miss the exclusive opportunity to interact with Dr. Rachel Rosovsky, the pioneering force behind the PERT concept at MGH in Boston, USA. As the current President of the PERT Consortium in the USA, she brings a wealth of experience as Director of Thrombosis Research at Massachusetts General Hospital and Associate Professor of Medicine at Harvard Medical School.

## Dr. Rachel Rosovsky

Hematologist, Expert in Thrombosis (PE/DVT) and Hemostasis.  
President, Pulmonary Embolism Response Team (PERT) Consortium

## Dr. August YSA

Vascular and Endovascular  
Surgeon. FEBVS Hospital  
de Cruces. Barakaldo

Experience the unparalleled expertise of Dr. Augusto Ysa from Spain in PAD extreme interventions, Shockwave Lithotripsy, Deep Vein arterialization and atherectomies. Dr. Ysa is a master in extreme Recanalization for PAD and has curated a comprehensive session on PAD interventions for all participants.

## Dr. Yuji Okuno

Chief Director OKUNO Clinic  
Developing and disseminating  
MSK Embolization

Dr. Yuji Okuno, may also join us and share his magical experience on pain & embolization. He is Chief Director OKUNO CLINIC | Developing and disseminating MSK Embolization, TAME treatment, a new treatment for chronic pain (Okuno Method)

| <b>EMBOLIZATION for Targeted Therapies</b>   |  |   |                               |
| <b>09:00 AM - 10:30 AM</b>   | <b>PAE Symposium &amp; Hemorrhoid Embolization: <a href="#">STREAMTEAM(USA)</a></b>  |   |                               |
| <b>Talk</b>  | Revise your Anatomy: Is that the Prostatic Artery<br>(Operator learning Curve & How to minimize Radiation)                       | Dr. Sandeep Bagla (USA)   |                               |
| <b>Talk</b>  | PAE: Where Do We Stand in 2024!<br>Preferred Agent: The Best embolic: PVA or Glue (N-BCA)<br>My Best Microcatheters & Guidewires | Dr. Sandeep Bagla (USA)<br>Dr.Yuji Okuno (JAPAN)  |                               |
| <b>Talk</b>  | PAE or Minimally Invasive Urological Procedures:<br>What are they and how do they Work Compared to TURP                          | Dr. Alex Pavidapha (USA)  |                               |
| <b>Talk</b>  | PAE outside the Halo Effect: Using Decision Trees  | Dr. Alex Pavidapha (USA)  |                               |
| <b>Talk</b>  | Radial vs Femoral Access in PAE  | Dr. Sandeep Bagla (USA)   |                               |
| <b>Talk</b>  | Managing PAE Collateral Pathways   | Dr. Sandeep Bagla (USA)   |                               |
| <b>Talk</b>  | PAE in the Prostate Cancer Patient: Where are we Heading?  | Dr. Alex Pavidapha (USA)  |                               |
| <b>Talk</b>  | Hemorrhoidal Embolization: Anatomy & Technique & How to increase<br>your Referrals & Practice                                    | Dr. Sandeep Bagla (USA)   |                               |
| <b>10:15 - 10:30 AM</b>  | <b>Q &amp; A and Discussion</b>  |   |                               |
| <b>10:30 AM - 12:30 AM</b>   | <b>MSK Embolization (Experts from JAPAN &amp; USA)</b>   |   |                               |
| <b>Talk</b>  | <b>My Journey</b> with MSK Embolization: How did he get here? Where next?  | Dr.Yuji Okuno (JAPAN)   |                               |
| <b>Talk</b>  | <b>JAPANESE Technique</b> How I do it- Technique: Preferred Access/<br>Catheters & embolic agents                                | Dr.Yuji Okuno (JAPAN)   |                               |
| <b>Talk</b>  | <b>American way:</b> How I do it- Technique: Preferred Access & Catheters &<br>embolic agents                                    | Dr. Sandeep Bagla (USA)   |                               |

|   |  |  |
|---|--|--|
| Talk  | Genicular Artery Embolization for Knee Pain  | Dr. Sandeep Bagla (USA)  |
| Talk  | Shoulder Embolization  | Dr.Yuji Okuno (JAPAN)  |
| Talk  | Elbow Embolization   | Dr. Sandeep Bagla (USA)  |
| Talk  | Rare & Exotic cases of MSK Embolization by Dr. Okuno   | Dr.Yuji Okuno (JAPAN)  |
| <b>12:30 PM - 1:30 PM</b>   | <b>Aortic Session</b>  |  |
| Talk  | <b>"The George Way"</b> : Vision, Determination & Innovation at it's Best:<br>Total Arch Replacement using PM Valiant & Fluency Stent Graft.<br><b>4 Vessel Arch Fen Case by: Team Vascular R&amp;R Hospital , Delhi</b>   | Dr. George Joseph (CMC Vellore)<br>Dr. Ajaj Dabas & Team (R&R Hosp.)   |
| Talk  | <b>Simplify complexity of TAAA patients with branch devices:</b> (Know about Off the self <b>"E-nside"</b> & Custom Made <b>"E-DM"</b> Choice between outer and inner branches<br>Bridging stent grafts of my choice)  | International Speaker  |
| Talk  | <b>Next Generation Devices for AAA &amp; TAAA:</b> Experience with TREO & Relay Pro  | Dr. Raghuram Laxminarayan (UK)   |
| Talk  | Preservation of the Internal Iliac: Treatment of Bilateral Internal Iliac aneurysms  | International Speaker  |
| Know ur Devices   | <b>Handling the Devices:</b> Valiant/Endurant/Treo/Relay Pro/ Zenith Alpha/Jotec E-Tegra   | <b>Learn from "AORTIANS"</b>   |
| <b>1.30 PM - 2.30 PM</b>  | <b>( LUNCH BREAK)</b>  |  |
| <b>2:30 PM - 2:45 PM</b>  | <b>Inauguration &amp; PEIRT Bharat Session VTE (Expert Summit on PE &amp; DVT)</b>   |  |
| <b>Lightning the Lamp &amp; Felicitatation of International Speakers!</b>             |  |  |
| Case Based Talk   | How to Build a Successful <b>PERT/VTE</b> Program with Long Term Follow Up   | Dr. Rachel Rosovsky (USA)  |
| Talk  | <b>PE Pathophysiology</b> , Classijication & Guidelines: What Are We Dealing With?   | Dr. Sanjay Mittal  |
| DEBATE 1 :  | <b>Submassive PE</b> (When the Alarm Rings)  | Dr. Shrikant Sharsatbuddhe (Aurangabad)  |
| DEBATE 1 :  | <b>Massive PE</b> (How long will you wait)   | Dr. Rajesh Misra (Ahmedabad)   |
| Talk  | <b>Percutaneous Pulmonary Thrombectomy:</b> Journey from Pigtail catheters to Flash 16 (2.0) and INARI   | TBD  |
| Talk  | Pulmonary Thrombectomy : How do, I do?   | Sanjeeva Kalva (USA)   |
| Learn from Others Expertise & Mistakes  | <b>PE Case based Presentation &amp; Discussion:</b><br>(Contribution from Various Centres in India)<br>• <b>How I Remove PE Clot Step by Step Demonstration ?</b><br>• <b>The Challenges faced &amp; Device Selection?</b><br>• <b>Are we all at same page: Clinical &amp; Technical Protocol.</b> | 1.Jaypee IR Team (Dr. CPS Chauhan Team)<br>2.Medanta Lucknow IR Team (Dr.Rohit/Dr.Gaurav)<br>3.Shri Mahant Indresh Hospital, Dehradoon (Dr.Prashant Sarda)<br>4. Dr. Sanjeeva Kalva<br>5. Dr. Venkat Tummala |
| Talk  | <b>TREATING DVT by Endovascular means :</b> Has my Protocol Changed in 2024  | • Dr. Bart Dolmatch his Experience Inari Devices<br>• Medanta Experience Penumbra Devices  |
| Case based Talk   | <b>Occluded Venous Stent: How To Open its</b>  | TBD  |
| Talk  | Comolex IVC Filter retrieval   | Sanjeeva Kalva ( USA)  |
| Panel Discussion  | Need for National PE Registry & Wrap up  | Panel discussion   |
| <b>Vote of Thanks</b><br><b>Team Vascular &amp; Critical Care (Medanta, Gurugram)</b> |  |  |

## Delegate / Faculty (Physicians/Doctors) Registration

| Categories  | Early Bird (In INR)<br>Till 8 <sup>th</sup> Nov 2024 | Standard (In INR)<br>9 <sup>th</sup> Nov 2024 onwards |
|---|--|---|
| Residential Registration - Single Occupancy (2N/3D)   | 20,000.00  | 25,000.00   |
| Residential Registration - Twin Sharing (2N/3D)   | 15,000.00  | 20,000.00   |
| Non-Residential Registration  | 11,000.00  | 15,000.00   |
| <b>PG' Students - Residential Registration - Twin Sharing (2N/3D)</b><br><b>First 25 registration is closed</b><br>Due to overwhelming demand, we've opened 25 additional slots for "PG Students - Residential Registration"! Don't wait secure your spot by registering before October 21, 2024. | 8,000.00   | 12,000.00   |

- Conference Registrations is mandatory for all.
- The Residential registration category guests will be entitled to conference meals, hall access, a conference kit, participation certificate, gala night access, and accommodation.
- The Non-Residential registration category guests will be entitled to conference meals, hall access, a conference kit, participation certificate, and gala night access.
- A letter from their HOD or student ID card must be uploaded as a proof of PG Student during online registration. You are also required to submit a copy of the same at registration counter while taking your badge.
- Pick-up & drop from airport/railway station in Delhi NCR will be organized by the Organizing Committee.
- **Travel Reimbursements for PG students:** The Maximum reimbursement for travel tickets is INR.10,000.00 or ticket cost, whichever will be lower.

### Conference Registration Refund/ Cancellation / Transfer Policy:

- Above cost is inclusive of GST.
- 50% refund till 15 Nov 2024, after that no refund.
- Registration can be reassigned / transferred to other members at the discretion of organizing Committee till 30<sup>th</sup> Nov 2024
- No payment will be accepted via Cheque or Demand Draft after 30<sup>th</sup> Nov 2024
- For any further queries please mail at [letscidaap@gmail.com](mailto:letscidaap@gmail.com) or call **+91-9871522776**
