CIDAAP 6.0

With

PEiRT Bharat 2.0

December 20-21, 2024

**The Westin Hotel, Gurugram
Delhi-NCR, India**

SPONSORSHIP BROCHURE

www.lets-cidaap.com

Dear Esteemed Colleagues,

Greetings from the Vascular Access Society of India (VASI)!

Following the resounding success of **Let's CiDAAP 5.0** and **PEiRT Bharat 1.0**, we are delighted to announce **Let's CiDAAP 6.0** to be held on **December 20–21, 2024**, at **The Westin Hotel, Gurugram, Delhi-NCR, India**.

Since its inception, Let's CiDAAP has been a distinguished platform for healthcare professionals and industry leaders to exchange knowledge and showcase advancements in peripheral endovascular therapies. This year's theme, "**Changing Paradigms - Navigating Vascular Health Together**" underscores our commitment to fostering collaborative innovations in vascular health.

We anticipate a dynamic assembly of over 25 international experts, 100 national experts, and more than 400 delegates from across the globe.

Our comprehensive two-day program will feature live-recorded cases, keynote lectures, interactive panel discussions, and a Grand Quiz, offering the highest level of interactive education.

CiDAAP 6.0 @2024 will cover almost all the critical topics such as Pulmonary embolism, DVT, PAD, dialysis access, aortic aneurysms, critical limb ischemia, advanced venous interventions, and more.

In alignment with recent advancements, this year's conference will place a special focus on mechanical thrombectomy devices, which have revolutionized the treatment of acute limb ischemia and deep vein thrombosis & Pulmonary Embolism. Traditional treatments for these conditions have often relied on surgical options like conventional thrombectomy for arterial occlusions and anticoagulation for venous conditions. However, there has been a significant shift towards percutaneous mechanical thrombectomy techniques.

The Asian subcontinent has been fortunate to witness the introduction of multiple mechanical thrombectomy devices such as CAVT (CAT12 & 16), AngioJet, Inari, and the soon-to-be-introduced devices like Rotarex & Aspirex, Jet-i, Diamondback 360, Jet-Stream. At CiDAAP, we have always championed the integration of new technologies, providing healthcare professionals with hands-on experiences and insights from global experts to incorporate these practices into local healthcare settings, thereby significantly benefiting patients.

Highlights of Let's CiDAAP 6.0 include:

- Step-by-step demonstrations and live workshops featuring cutting-edge mechanical thrombectomy devices.
- Expert-led sessions on closure devices, vascular ultrasound techniques, suturing, and physician-modified fenestration of endografts.
- In-depth discussions on the latest advancements and practical applications of these technologies.
- Perspectives from cardiologists, interventional radiologists, vascular surgeons, and international nephrologists, ensuring a holistic view of vascular health.

We are pleased to invite you to join us at this prestigious event as a delegate. This conference offers an unparalleled opportunity to engage with global experts, gain practical experience, and participate in enriching discussions on the forefront of vascular health advancements. Given the focused nature of this event, we are limiting registrations to ensure a high-quality, interactive experience.

To secure your participation at this transformative event, please register at the earliest. For any inquiries regarding participation or specific options, kindly contact the organizing committee at letscidaap@gmail.com

We look forward to your enthusiastic participation and to making **Let's CiDAAP 6.0** a grand success.

Warm regards

**Dr. Rajiv
Parakh**

**Dr. Tarun
Grover**

**Dr. Virender
Sheorain**

**Dr. Lawish
Agarwal**

**Dr. Avichala
Taxak**

Don't miss the opportunity to meet In-person with Stalwarts

Gain expertise in Percutaneous Pulmonary Thrombectomy & Dialysis Access through a detailed learning experience with renowned International Masters Dr. Bart Dolmatch

Dr. Bart Dolmatch

Interventional Radiologist
at The Palo Alto Medical Foundation

Dr. Sanjeeva Kalva of the USA. These seasoned experts will impart their vast knowledge on VTE, advanced venous interventions and Obviously Controversies In Dialysis Access.

Dr. Sanjeeva Kalva

Professor of Radiology and Vice Chair of Image-Guided Interventions, University of Texas Southwestern Medical Center Dallas, TX

Dive into hands-on training with special workshops led by Dr. Venkat Tummala of the USA, focusing on cutting-edge technologies such as Flash 2.0, Bolt 7 the INARI system, Rotatex, and Aspirex etc.

Dr. Venkat Tummala

Vascular & Interventional
Radiologist Associate CMO Penumbra

Don't miss the exclusive opportunity to interact with Dr. Rachel Rosovsky, the pioneering force behind the PERT concept at MGH in Boston, USA. As the current President of the PERT Consortium in the USA, she brings a wealth of experience as Director of Thrombosis Research at Massachusetts General Hospital and Associate Professor of Medicine at Harvard Medical School.

Dr. Rachel Rosovsky

Hematologist, Expert in Thrombosis (PE/DVT) and Hemostasis. President, Pulmonary Embolism Response Team (PERT) Consortium

Dr. August YSA

Vascular and Endovascular
Surgeon. FEBVS Hospital
de Cruces. Barakaldo

Experience the unparalleled expertise of Dr. Augusto Ysa from Spain in PAD extreme interventions, Shockwave Lithotripsy, Deep Vein arterialization and atherectomies. Dr. Ysa is a master in extreme Recanalization for PAD and has curated a comprehensive session on PAD interventions for all participants.

Dr. Yuji Okuno

Chief Director OKUNO Clinic
Developing and disseminating
MSK Embolization

Dr. Yuji Okuno, may also join us and share his magical experience on pain & embolization. He is Chief Director OKUNO CLINIC | Developing and disseminating MSK Embolization, TAME treatment, a new treatment for chronic pain (Okuno Method)

TITLE PARTNER

Sponsorship amount **Rs.30 Lakhs + GST**

- 4 rooms on twin sharing basis with meals
- Acknowledgment as Conference Partners
- 10 Complimentary Exhibitor badges including Lunches and Dinners.
- 2 Sponsored Session of 15 mins
- Logo Branding on website
- Premium Stall
- Display of your digital slides on the screens in all hall between session and during breaks

TITLE

PLATINUM

PLATINUM PARTNER

Sponsorship amount **Rs. 20 Lakhs + GST**

- 3 rooms on twin sharing basis with meals
- 6 complimentary exhibitor badges including Lunches and Dinners
- 1 Sponsored Session of 15 mins
- Logo branding on website
- Logo branding on lanyard
- Premium Stall
- Display of your digital slides on the screens in all halls between session and during breaks

DIAMOND PARTNER

Sponsorship amount **Rs.12 Lakhs + GST**

- 2 room on twin sharing basis with meals
- 4 Complimentary Exhibitor badges including lunches and Dinners
- Logo branding on website
- Large Stall
- Display of your digital slides on the screens in all hall between sessions and during breaks

DIAMOND

GOLD

GOLD PARTNER

Sponsorship amount **Rs. 8 Lakhs + GST**

- 1 room on twin sharing basis with meals
- 2 Complimentary Exhibitor badges including Lunches and Dinners
- Display of your digital slides on the screens in all hall between sessions and during breaks
- Standard stall

***For other available options, you may please discuss with organizing committee

Delegate / Faculty (Physicians/Doctors) Registration

Categories	Early Bird Offer (Rs.)
Residential Registration - Single Occupancy (2N/3D)	20,000.00
Residential Registration - Twin Sharing (2N/3D)	15,000.00
Non-Residential Registration	11,000.00
PG' Students - Residential Registration - Twin Sharing (2N/3D) First 25 registration only	8,000.00

- Conference Registrations is mandatory for all.
